Tucson, AZ 85748

Product:Paint-X
MSDS Revision No. 062010

This product contains pigments and other solids necessary to formulate an intumescent Fire Retardant paint. These materials may be dust hazards if; excessive quantities of cured paint is released into the air. Due to the anticipated surface coating thickness, it is unlikely that excessive exposures would occur. Work practices designed to subdue dust during paint removal, such as wet methods, would be prudent. Application of wet paint would not present such a hazard under normal application conditions. Spray application in confined areas may require special controls and use of personal protective equipment. A preservative has been added at levels not considered hazardous.
